HPC EXANEST Social Landscape
July 1, 2017 at 4pm - October 12, 2017 at 4pm

This report analyzes **467 social mentions** including the keywords **@exanest_h2020** between July 1st at 4pm (Central European Daylight Time) and October 12th at 4pm (Central European Daylight Time).

The peak of conversation happened on July 1st, which included the keywords **theta**, **massively parallel solution**, **x86**, **visionary statesman who** and **videoslides**.

The most influential profile during the selected time period was **@homeAIinfo**, who has 57,101 followers. @homeAIinfo's mentions were shared twice.
Volume:

There were **467** mentions between July 1st at 4pm and October 12th at 4pm.

The peak of conversation (26 mentions) occurred on July 1st..

The most frequently used keywords during that peak were **theta**, **massively parallel solution**, **x86**, **visionary statesman who** and **videoslides**.

Sentiment:

33% Positive
Peak: 11 mentions on July 1st.

6% Negative
Peak: 3 mentions on September 3rd.

Most shared Positive mention:

> Exciting job opportunities available to work for the @ExaNeSt_H2020 project (and its 'siblings') at FORTH. https://t.co/LKCUgdVOOs

ExaNeSt_H2020
Influence: **42**   Followers: **207**

H2020 project, developing solutions for Interconnection Networks, Storage, and Cooling for exascale-level supercomputers, tuning real HPC Applications.
